

DAILY SCRUM MEETING 10 (1/26/26)

Attendees: Mia Mader, David Martinez, Mariah Harris, Christopher Vivas Zachary Shea

Start time: 9:00PM

End time: 9:30PM

Mia Mader

- *How many hours have I worked since the last meeting?*
 - 2 hours
- *What was done since the last scrum meeting?*
 - Researched the chosen frameworks, and refreshed myself on HTML and JS.
 - Had the sprint planning meeting.
- *What is planned to be done until the next scrum meeting?*
 - Working on my assigned features from the planning meeting, and setting up the github repository.
- *What are the hurdles?*
 - Ensuring everything is set up correctly in the repo.

David Martinez

- *How many hours have I worked since the last meeting?*
 - 2 hours
- *What was done since the last scrum meeting?*
 - Begin creating the selected project structure with different layers for controllers, services, and repositories in Spring Boot.
- *What is planned to be done until the next scrum meeting?*
 - *Test a basic end-to-end flow for an entity and test the saving and retrieval of data.*
- *What are the hurdles?*
 - *Ensuring that all dependencies function correctly during database integration and security implementation.*

Mariah Harris

- *How many hours have I worked since the last meeting?*
 - 2 hours
- *What was done since the last scrum meeting?*
 - Researched framework documentation and reviewed examples to better understand how HTML is structured and used within the project
- *What is planned to be done until the next scrum meeting?*
 - Apply the researched concepts while continuing to develop project components
- *What are the hurdles?*
 - Translating documentation and examples into practical implementation within the framework

Christopher Vivas

- *How many hours have I worked since the last meeting?*
 - 2 hours
- *What was done since the last scrum meeting?*
 - Continued to familiarize myself with the Spring framework and their different libraries.
- *What is planned to be done until the next scrum meeting?*
 - Continue to familiarize myself with the spring framework. Create a simple ERD for the project to get a better idea how data will be handled.
- *What are the hurdles?*
 - None

Zachary Shea

- *How many hours have I worked since the last meeting?*
 - 2 hours
- *What was done since the last scrum meeting?*
 - Learned and developed a grasp about what must be completed for this sprint.
 - Developed / altered the sprint to ensure everything is correct and everything follows the desired path needed.
- *What is planned to be done until the next scrum meeting?*
 - Create a use case diagram.
- *What are the hurdles?*
 - Discussing who should do what and what should be completed
