

SPRINT RETROSPECTIVE MEETING (2/8/26)

Attendees: Mia Mader, David Martinez, Mariah Harris, Christopher Vivas Zachary Shea

Start time: 4:00 pm

End time: 4:30 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - We correctly estimated the velocity for our team.
- Did we do a good job estimating the points (time required) for each user story?
 - Yes, we correctly estimated the points for each user story.
- Did each team member work as scheduled?
 - Yes: All team members contributed consistently, completing their assigned

What went right?

- We were able to download and successfully run our database using Spring Boot and Docker.
- The GitHub ran smoothly, with no issues or errors pushing the code.
- Coding the front end successfully led to a mini creation of a new account, just as a test for now.

How to address the issues in the next sprint?

- How to improve the process?
 - Communicate with the team more.
 - Ensure we are on time to important meetings.
 - When a submission is needed, do it within 5 minutes of each other
- How to improve the product?
 - Begin the implementation of fusing the database and front end together.
 - Continue to code and perfect our code so there are no fatal errors within it.
