

SPRINT REVIEW MEETING (4/12/26)

Attendees: Mia Mader, David Martinez, Mariah Harris, Christopher Vivas Zachary Shea

Start time: 6:00 pm

End time: 6:30 pm

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

1	User Story #1: As a developer, I want to refine the frontend user interface so that all pages are consistent and user-friendly.
2	User Story #2: As a developer, I want to finalize the navigation bar so that it responds dynamically to user authentication.
3	User Story #3: As a developer, I want to fully integrate the review feature into the frontend so that users can view and interact with reviews.
4	User Story #4: As a developer, I want to perform comprehensive application testing to ensure that all features work correctly together.
5	User Story #5: As a developer, I want to validate the deployed application to ensure it functions correctly in the production environment.
6	User Story #7: As a developer, I want to prepare the final deliverables (README, poster, presentation, and videos) so that the project can be successfully submitted.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.
