

Sprint Backlog Grooming Meeting:

Attendees: Emre, Juan, Carlos, Henry, David

Start time: 7:51 PM

End time: 9:07 PM

Upcoming User Stories Reviewed:

The following stories were refined and prioritized by the product owner for potential inclusion in the upcoming sprint:

- **User Story 1:** Confirmation Message on Logout – 10 pts
- **User Story 2:** Password Visibility Toggle – 15 pts

Clarifications Discussed:

- **User Story 1:**
 - Clarified that the confirmation message should appear immediately after the user logs out
 - Defined that the message should clearly indicate successful logout
 - Reviewed whether the message appears as a toast, modal, or redirect screen (aligned toward lightweight confirmation UI)
 - Discussed keeping messaging short, clear, and consistent with system tone
 - Ensured the flow redirects users appropriately after logout (e.g., login page)
 - Confirmed responsiveness across desktop and mobile
- **User Story 2:**
 - Defined functionality to allow users to show/hide password input during login
 - Confirmed use of a toggle icon (eye icon) inside the password field
 - Discussed default behavior (password hidden by default for security)
 - Reviewed interaction behavior to ensure smooth toggling without input reset
 - Ensured consistency with modern UI/UX standards
 - Confirmed responsiveness and usability across desktop and mobile
 -

Definition of Ready (DoR) Compliance:

Both user stories were reviewed to ensure they meet DoR standards. Each includes:

- Clear acceptance criteria
- Defined user flows and UI expectations

- Supporting documentation outlining implementation approach

Future Refinement Needs:

The team and product owner identified additional backlog items for early grooming in the next refinement session, including:

- Enhancing dashboard performance and data refresh speed
- Improving visual consistency across energy-related UI components

These stories are not included in the current sprint but will need early refinement to maintain sprint flow.

Sprint Assignment Decisions*Team Members & Commitments:***Emre Akilli**

- Lead: User Story #1 – Confirmation Message on Logout
- Responsible for implementing logout confirmation logic and frontend behavior

Juan Carlos Gomez

- Pair/Support: User Story #1 – Confirmation Message on Logout
- Supports UI styling and message presentation

Carlos Diaz

- Lead: User Story #2 – Password Visibility Toggle
- Responsible for implementing toggle functionality and interaction logic

David Palacio

- Pair/Support: User Story #2 – Password Visibility Toggle
- Supports UI behavior and input handling

Henry Perez

- Pair/Support: User Story #2 – Password Visibility Toggle
- Assists with frontend consistency and styling
