

Daily Scrum Meeting Minutes

Attendees: Myckheal Hosang, Maksim Kharutski, Deryn Hurst, Nicholas Merjech

Start time: 7:00 PM

End time: 8:00 PM

Myckheal Hosang

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Reviewed the Airflow DAG and supporting Docker environment to better understand how the backup, restore, and verification pipeline operates
 - Continued investigating the 2_spin_up_temp task failure that is preventing the DAG from completing successfully
 - Traced task execution through Airflow logs and container behavior to isolate the issue to Docker execution within the Airflow container
 - Analyzed how the temporary replica database is supposed to be created as part of the pre-failover verification process for Story #1
- What is planned to be done until the next scrum meeting?
 - Resolve the Docker execution issue preventing the temporary database from being created
 - Successfully complete a full DAG run where all tasks execute without failure
 - Capture verification output from the integrity check task as acceptance evidence for Story #1
- What are the hurdles?
 - The Airflow container is unable to successfully execute the docker run command required to spin up the temporary replica database
 - This environment-level issue is blocking progress on validating the full data consistency verification workflow for Story #1

Maksim Kharutski

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Metabase research and sorting
- What is planned to be done until the next scrum meeting?
 - Continue Metabase research
- What are the hurdles?
 - None

Deryn Hurst

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Codebase examination for testing/corruption simulation
- What is planned to be done until the next scrum meeting?
 - Design process for corruption simulation to test cryptographic hashing feature
- What are the hurdles?
 - No hurdles

Nicholas Merjech

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Codebase examination for testing/corruption simulation
- What is planned to be done until the next scrum meeting?
 - Design process for corruption simulation to test cryptographic hashing feature
- What are the hurdles?
 - No hurdles
