

Sprint 6 Planning meeting Minutes:

Attendees: Wesley Del Orbe, Deryn Hurst, Matthew Ambroise, Ryan Amador, Mathew Lezcano

Start time: 9:00 pm

End time: 9:30 pm

After discussion, the velocity of the team was estimated to be at maximum one story per person.

Due to the velocity of the previous sprint, the product owner chose to continue with the following user stories through the next sprint. They are ordered based on their priority.

1. As an instructor, I want an easily accessible and implementable tool that is well-integrated with the systems currently used
2. As a student, I want a tool that I can pick up easily due to its similarity with tools I currently use
3. As an instructor, I want to be able clearly see my students' questions without needing to search for them for ease of assistance
4. As a student, I want an easily obtainable and easy-to-use tool that can allow me sort through questions with the use of upvotes

The team members indicated their willingness to work on the following user stories.

- Ryan Amador
 1. As an instructor, I want an easily accessible and implementable tool that is well-integrated with the systems currently used
- Deryn Hurst
 2. As a student, I want a tool that I can pick up easily due to its similarity with tools I currently use
- Wesley Del Orbe
 3. As an instructor, I want to be able clearly see my students' questions without needing to search for them for ease of assistance
- Mathew Lezcano, Matthew Ambroise
 4. As a student, I want an easily obtainable and easy to use tool that can allow me to sort through questions with the use of upvotes

The Team also agreed to allocate time this sprint to:

- Refining the interactive prototype and ensuring all features are functional
- Preparing documentation and meeting notes for the Capstone I Final Deliverable
- Beginning development of the team poster and optional presentation slides
