

Daily Scrum Meeting Minutes:

Attendees: Christopher Kverne, Nathan Lioe-A-Tjam, Isabella Anthony

Start time: 01/19/2026 4:20pm

End time: 01/19/2026 4:40pm

Christopher Kverne:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I've completed my entire pass over section 4 and 5
- What is planned to be done until the next scrum meeting?
 - Begin working on my QNG proposal by questioning the usefulness of this "quantum state" aware optimizer.
- What are the hurdles?
 - Reading prior research on this optimizer to understand the mathematical idea.

Nathan Lioe-A-Tjam:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Completed readings of final chapters of the paper 4 and 5.
- What is planned to be done until the next scrum meeting?
 - Continue exploring, brainstorming and identifying gaps in quantum machine learning.
- What are the hurdles?
 - Completely understanding the concepts explored in detail.

Isabella Anthony:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I looked into classical machine learning checkpointing. In order to gain a better understanding of the concept of checkpointing in general. Used the information gained to get a better understanding on how it differs with the "quantum checkpointing" framework in the paper assigned.
- What is planned to be done until the next scrum meeting?
 - For the next meeting, I will continue to explore quantum and how it works. Furthermore, I will start conducting literature reviews to help me brainstorm for new ideas.
- What are the hurdles?
 - Gaining a thorough understanding of the field.
