

Daily Scrum Meeting Minutes:

Attendees: Christopher Kverne, Nathan Lioe-A-Tjam, Isabella Anthony

Start time: 01/30/2026 4:20pm

End time: 01/30/2026 4:40pm

Christopher Kverne:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Start working on maximum likelihood in higher dimensions (i.e. vector calculus)
- What is planned to be done until the next scrum meeting?
 - Understand why a Fisher matrix is in multiple dimensions
- What are the hurdles?
 - Understand fisher matrices

Nathan Lioe-A-Tjam:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Read and looked in natural gradient descent and how it ties in with everything
- What is planned to be done until the next scrum meeting?
 - Keep studying and looking into fundamentals.
- What are the hurdles?
 - Understanding math.

Isabella Anthony:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - I looked at different resources that explain NGD and looked deeper into other resources to better understand fisher information.
- What is planned to be done until the next scrum meeting?
 - Start connecting the dots on how everything is related and start experimenting these with code.
- What are the hurdles?
 - The math behind everything.
