Sprint Retrospective Meeting

What went right, what went wrong.

Dylan Suniaga: Implemented final work from everyone and fixed UI

Anabella Trias: Implemented, refined, and simplified code to enhance interpretability of model that analyzes how product title and description impact sales performance and Best Seller Rank.

Gabriel Lopez: Successfully reviews old dataset from dylan and started implementing feature engineering ideas for the products. The dataset is huge and there are many columns, but I have learned a lot and improved since the last sprint.

Kevin Duran: Refined the NLP pipeline by experimenting with improved feature extraction techniques. Reviewed NLP notebooks and all notebooks in preparation for poster submission.
