

Sprint Review Meeting Minutes:

Date: 3/29/2026

Attendees: Max Gleiberman, Julian Hernandez, Nathan Mahabeer, Elizabeth Hechavarria

Start time: 6:00pm

End time: 6:30pm

Show & Tell Presentation:

User Story #6 – Project Poster Development (Completed)

- Final poster completed with FIU/CEC branding.
- All sections included:
 - Architecture diagram
 - Risk assessment summary
 - SIEM dashboard visuals
 - Key results and outcomes
- Poster reviewed and finalized with strong emphasis on clarity, professionalism, and visual appeal.

Rejected / Returned to Backlog:

- N/A

Remaining In-Progress / Planned for Future Sprints:

User Story #7 – Project Description Form and Website

Planned tasks include:

- Develop project description form:
 - Project title
 - Summary and motivation
 - Team member details
- Create and finalize project website content
- Produce required videos:
 - Intro video (team, problem, solution, value)
 - Demo video (system functionality and features)
- Ensure all deliverables are polished, professional, and publicly accessible

Notes / Feedback from Product Owners:

- Website and videos should maintain a professional and polished presentation.

- Videos should clearly communicate both the technical solution and its real-world value.
- Demo video should highlight actual system functionality and key features.
- Ensure strong visual and narrative consistency across all deliverables.
