

Daily Scrum Meeting Minutes:

Attendees: Monisha Kummari, Gabriel Xirinachs, Chloe Lindsay, Maria Vega Gonzalez, Jabbar Morla

Start time: 4:30 PM

End time: 5:00 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Logged and categorized initial bugs and inconsistencies found during system testing. Reviewed alignment between model outputs and documentation.
- What is planned to be done until the next scrum meeting?
 - Prioritize identified issues and assist the team in resolving high-impact inconsistencies.
- What are the hurdles?
 - Ensuring all critical edge cases are identified before final testing phases.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Expanded end-to-end test cases and identified early performance bottlenecks in API response times under load conditions.
- What is planned to be done until the next scrum meeting?
 - Refine testing scenarios and begin optimizing API performance where possible.
- What are the hurdles?
 - Reproducing inconsistent latency issues that only occur under specific request patterns.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued validating preprocessing outputs and analyzed their impact on final model predictions across multiple test scenarios.
- What is planned to be done until the next scrum meeting?
 - Refine preprocessing checks and ensure stability across all input variations.
- What are the hurdles?
 - Identifying subtle discrepancies in predictions caused by edge-case inputs.

Chloe Lindsay:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Implemented initial UI refinements and tested improved user interaction flows across multiple scenarios.
- What is planned to be done until the next scrum meeting?
 - Continue enhancing usability and validate that UI updates integrate smoothly with backend responses.
- What are the hurdles?
 - Maintaining UI consistency while making iterative improvements.

Jabbar Morla:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Started addressing identified backend bugs and improved API error handling for common failure scenarios.
- What is planned to be done until the next scrum meeting?
 - Continue fixing bugs and enhance stability of API responses during edge-case testing.
- What are the hurdles?
 - Ensuring error-handling improvements do not introduce unintended side effects.
