

## Daily Scrum Meeting Minutes:

Attendees: Monisha Kummari, Gabriel Xirinachs, Chloe Lindsay, Maria Vega Gonzalez, Jabbar Morla

Start time: 1:30 PM

End time: 2:00 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
  - 3 hours
- What was done since the last scrum meeting?
  - Finalized documentation for anomaly score interpretation and validated how thresholds are reflected in the UI.
- What is planned to be done until the next scrum meeting?
  - Assist with reviewing anomaly scores across different user scenarios and support final adjustments to documentation based on UI behavior.
- What are the hurdles?
  - Ensuring anomaly score explanations remain consistent across both technical documentation and user facing UI descriptions.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
  - 3 hours
- What was done since the last scrum meeting?
  - Refined API integration, handled edge cases, and ensured consistent data flow between frontend and backend systems.
- What is planned to be done until the next scrum meeting?
  - Continue testing API integration with additional frontend scenarios and support debugging of any remaining request-response inconsistencies.
- What are the hurdles?
  - Identifying and resolving irregular issues that only appear under specific frontend integration patterns.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
  - 3 hours
- What was done since the last scrum meeting?
  - Enhanced validation logic and ensured all edge cases are handled before data reaches the model.
- What is planned to be done until the next scrum meeting?

- Conduct additional validation testing with varied input cases and verify alignment between validation logic and preprocessing behavior.
- What are the hurdles?
  - Catching less obvious edge cases that may not appear in standard testing scenarios.

Chloe Lindsay:

- How many hours did I work since the last meeting?
  - 3 hours
- What was done since the last scrum meeting?
  - Refined UI components and improved clarity and usability of displayed model outputs.
- What is planned to be done until the next scrum meeting?
  - Continue refining UI responsiveness and ensure model outputs are displayed clearly under different user input conditions.
- What are the hurdles?
  - Maintaining consistent UI behavior when handling rapid or repeating API responses.

Jabbar Morla:

- How many hours did I work since the last meeting?
  - 3 hours
- What was done since the last scrum meeting?
  - Finalize form functionality and improved user experience, including error handling and input feedback.
- What is planned to be done until the next scrum meeting?
  - Perform additional testing on form interactions and ensure error handling behaves correctly across all input scenarios.
- What are the hurdles?
  - Handling unexpected user inputs without disrupting the overall application flow.
