

Daily Scrum Meeting Minutes:

Attendees: Monisha Kummari, Gabriel Xirinachs, Chloe Lindsay, Maria Vega Gonzalez, Jabbar Morla

Start time: 4:30 PM

End time: 5:00 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Assisted in prioritizing and tracking remaining issues and supported verification of fixes applied to high-impact inconsistencies.
- What is planned to be done until the next scrum meeting?
 - Continue validating resolved issues and support final system-wide verification to ensure stability.
- What are the hurdles?
 - Preventing regression issues while confirming that recent fixes remain stable during comprehensive testing.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued performance tuning and evaluated API behavior under additional simulated load conditions.
- What is planned to be done until the next scrum meeting?
 - Further optimize API performance and stabilize response times across varying test scenarios.
- What are the hurdles?
 - Pinpointing the sources of latency variability across different load and testing conditions.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Conducted extended validation checks on preprocessing outputs and ensured consistency across diverse input scenarios.
- What is planned to be done until the next scrum meeting?
 - Finalize preprocessing validation and confirm alignment with previously validated model outputs.
- What are the hurdles?

- Avoiding unintended impacts on established model behavior when refining preprocessing steps.

Chloe Lindsay:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Performed additional UI testing across varied user inputs and refined usability based on observed interactions.
- What is planned to be done until the next scrum meeting?
 - Finalize UI adjustments and ensure seamless interaction between frontend components and backend responses.
- What are the hurdles?
 - Maintaining smooth frontend-backend integration while introducing usability improvements.

Jabbar Morla:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Validated bug fixes through full workflow testing and improved API response stability under edge-case conditions.
- What is planned to be done until the next scrum meeting?
 - Complete final end-to-end validation and confirm system readiness for submission.
- What are the hurdles?
 - Ensuring consistent behavior of recent fixes across all integrated components during final testing.
