

Daily Scrum Meeting Minutes:

Attendees: Monisha Kummari, Gabriel Xirinachs, Chloe Lindsay, Maria Vega Gonzalez, Jabbar Morla

Start time: 2:30 PM

End time: 3:45 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Began consolidating the finalized feature set and tested its integration across supervised and anomaly detection pipelines.
- What is planned to be done until the next scrum meeting?
 - Continue standardizing the finalized feature set and verify consistent implementation across workflows.
- What are the hurdles?
 - Ensuring feature updates do not create mismatches between pipelines.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Expanded analysis of performance differences between models and refined comparison notes for reporting clarity.
- What is planned to be done until the next scrum meeting?
 - Finalize comparative analysis details and align documentation with updated evaluation results.
- What are the hurdles?
 - Keeping comparison metrics standardized across different modeling approaches.

Chloe Lindsay:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued optimizing anomaly detection thresholds and tested performance on additional transaction subsets.
- What is planned to be done until the next scrum meeting?
 - Review threshold performance results and make small adjustments to improve stability.
- What are the hurdles?

- Preventing false positives from increasing as detection sensitivity improves.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued validating preprocessing reliability and documented additional transformation details for consistency.
- What is planned to be done until the next scrum meeting?
 - Complete documentation of preprocessing steps and confirm reproducibility across runs.
- What are the hurdles?
 - Maintaining consistent preprocessing outputs as feature refinements continue.

Jabbar Morla:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Enhanced model persistence scripts and began preliminary testing of the inference pipeline using saved models.
- What is planned to be done until the next scrum meeting?
 - Continue testing inference workflow and resolve any version compatibility issues.
- What are the hurdles?
 - Managing compatibility between saved models and updated preprocessing configurations.
