End time: 4:00 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Worked on aligning anomaly score explanations between technical documentation and UI descriptions.
- What is planned to be done until the next scrum meeting?
 - Review documentation consistency with the team and make minor adjustments if needed.
- What are the hurdles?
 - Keeping explanations consistent across both technical and user-facing contexts.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued stabilizing API integration by addressing additional edge-case inconsistencies in request-response handling.
- What is planned to be done until the next scrum meeting?
 - Verify stability across more frontend scenarios and confirm consistent data flow.
- What are the hurdles?
 - Occasional inconsistencies that appear only under specific interaction patterns.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Expanded validation coverage to include additional edge-case input scenarios.
- What is planned to be done until the next scrum meeting?
 - Continue refining validation logic and confirm edge cases are handled correctly.
- What are the hurdles?
 - Detecting less obvious edge cases during testing.

Chloe Lindsay:

- How many hours did I work since the last meeting?

- 3 hours
- What was done since the last scrum meeting?
 - Further improved UI stability when handling rapid and repeated API responses.
- What is planned to be done until the next scrum meeting?
 - Test UI behavior under additional user interaction scenarios and refine responsiveness.
- What are the hurdles?
 - Maintaining consistent UI performance under high interaction frequency.

Jabbar Morla:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued refining form behavior and improved handling of unexpected user inputs.
- What is planned to be done until the next scrum meeting?
 - Finalize form validation and confirm stable behavior across all tested scenarios.
- What are the hurdles?
 - Ensuring robustness without overcomplicating input validation logic.
