End time: 5:00 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Completed final verification of resolved issues and ensured documentation reflects the latest system behavior.
- What is planned to be done until the next scrum meeting?
 - Perform a final system walkthrough and confirm readiness for demo and submission.
- What are the hurdles?
 - Ensuring no small inconsistencies remain between documentation and actual system output.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Finalized API performance optimizations and confirmed stable response times across multiple test scenarios.
- What is planned to be done until the next scrum meeting?
 - Support final system validation and ensure API remains stable under last-round checks.
- What are the hurdles?
 - Minor variations in response time under edge-case load conditions.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Completed preprocessing validation and confirmed consistency across all datasets and test cases.
- What is planned to be done until the next scrum meeting?
 - Assist with final system validation and ensure preprocessing remains stable in full pipeline execution.
- What are the hurdles?

- Double-checking that no hidden inconsistencies appear in rare edge cases.

Chloe Lindsay:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Completed final UI polish and confirmed smooth interaction across all user flows.
- What is planned to be done until the next scrum meeting?
 - Perform a final UI walkthrough and assist with demo preparation.
- What are the hurdles?
 - Maintaining UI consistency during final integration checks.

Jabbar Morla:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Completed full end-to-end system validation and verified stability of all integrated components.
- What is planned to be done until the next scrum meeting?
 - Support final readiness checks and assist with any last-minute fixes.
- What are the hurdles?
 - Ensuring all components behave consistently under final validation conditions.
