

Daily Scrum Meeting Minutes:

Attendees: Monisha Kummari, Gabriel Xirinachs, Chloe Lindsay, Maria Vega Gonzalez, Jabbar Morla

Start time: 3:00 PM

End time: 3:30 PM

Monisha Kummari:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Reviewed anomaly score explanations with the team and incorporated final minor adjustments into documentation.
- What is planned to be done until the next scrum meeting?
 - Ensure that anomaly explanations are fully aligned with the frontend dashboard and update user guide sections.
- What are the hurdles?
 - Ensuring that the documentation clearly matches the UI behavior under different user inputs.

Gabriel Xirinachs:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Completed verification of API integration across all standard and edge-case frontend interactions.
- What is planned to be done until the next scrum meeting?
 - Support final testing for high-frequency interactions and document any remaining minor API edge-case issues.
- What are the hurdles?
 - Handling intermittent latency spikes that appear only under rapid repeated requests.

Maria Vega Gonzalez:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Finished validation logic for edge-case transaction inputs and confirmed preprocessing consistency.
- What is planned to be done until the next scrum meeting?
 - Assist with final testing of input handling during frontend-backend integration.
- What are the hurdles?

- Ensuring rare or unexpected transaction formats do not break the pipeline.

Chloe Lindsay:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Refined fraud probability and anomaly indicator visualizations; tested responsiveness under simulated real-world load.
- What is planned to be done until the next scrum meeting?
 - Finalize visualizations and verify alignment with backend outputs.
- What are the hurdles?
 - Maintaining smooth, real-time updates without lag when multiple transactions are submitted rapidly.

Jabbar Morla:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Finalized frontend transaction form and prediction result display; confirmed stable behavior across repeated test scenarios.
- What is planned to be done until the next scrum meeting?
 - Work on minor UI adjustments and support final frontend-backend integration testing.
- What are the hurdles?
 - Ensuring input and output handling remain robust without overcomplicating validation logic.
