

Daily Scrum Meeting Minutes:

Attendees: Lauren Stone (#6235603), Daniel Gonzalez (#6285324), Juan de Dios Nunez (#6497675), Nicholas Brotherhood (#6352749), Daniel Bencomo (#6286672)

Start time: 6:30 P.M.

End time: 7:30 P.M.

Lauren Stone:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - Finalized the API that we will be using for project.
- What is planned to be done until the next scrum meeting?
 - Go over full project scope for frontend specifically with Daniel G and go over designs on Figma.
- What are the hurdles?
 - None.

Daniel Gonzalez:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - Confirmed API that will be used for the project.
- What is planned to be done until the next scrum meeting?
 - Go over API data and how it can be used for UI to align on Figma designs.
- What are the hurdles?
 - No hurdles

Juan de Dios Nunez :

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - Finalized decision on what API we end up using.
- What is planned to be done until the next scrum meeting?
 - Fill out API - UI Scope document and start coding API endpoints.
- What are the hurdles?
 - N/A

Nicholas Brotherhood:

- How many hours did I work since the last meeting?
 - 2 Hours

- What was done since the last scrum meeting?
 - Secured access to the Spotify API and nearly finalized approved use of it barring any obstacles from project requirements.
- What is planned to be done until the next scrum meeting?
 - Decide which metrics to include for the users' reports and how their AudioAura is to be calculated and presented.
- What are the hurdles?
 - Need to investigate full requirements for the project to see if the limited Spotify API is even feasible for our project.

Daniel Bencomo:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - We were able to finally obtain the Client ID and Client secret for the spotify api so we have now finalized the application we will be using
- What is planned to be done until the next scrum meeting?
 - To now move forward with the authentication and further user stories for the spotify api
- What are the hurdles?
 - None
