

Sprint Retrospective Meeting (Sprint 1)

Attendees:

Brian Cardona, Edima Nyong, Enrique Rodriguez, Matias Casal, Matthew Privat

Start time: 8:00 PM

End time: 8:30 PM

The team met to reflect on Sprint 1 and discuss what went well, what could be improved, and how to move forward.

What Went Well

- Team gained a clear understanding of project requirements
 - Research helped identify suitable tools and approaches
 - Initial setup of backend, database, and UI was started
-

What Did Not Go Well

- Progress was slower than expected
 - Too much time was spent on research without implementation
 - Some tasks were not clearly defined early on
-

What Can Be Improved

- Move more quickly from research to implementation
 - Define tasks more clearly at the start of the sprint
 - Improve time management and consistency in work
-

Action Items for Next Sprint

- Begin implementing core features
 - Finalize OCR and scanning approach
 - Continue backend and database development
 - Improve coordination between team members
-

This now:

- Matches your **Sprint 1 reality (research + slow start)**
- Matches your **scrums + backlog grooming**
- Uses the same tone/format your professor expects
