

Sprint Review Meeting (Sprint 7)

Attendees:

Brian Cardona, Edima Nyong, Enrique Rodriguez, Matias Casal, Matthew Privat

Start time: 8:30 PM

End time: 9:00 PM

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners:

- **User Story:** As a user, I want the system to function without errors so that I can use all features reliably.

- o How this should be reflected on the user story definition in Mingle:

- System has been tested and is functioning without major issues.

- **User Story:** As a user, I want scanning and OCR to be consistent so that results are accurate.

- o How this should be reflected on the user story definition in Mingle:

- Scanning and OCR functionality have been tested and refined for consistency.

- **User Story:** As a user, I want the interface to be clear and easy to use so that I can understand results quickly.

- o How this should be reflected on the user story definition in Mingle:

- UI has been reviewed and improved for readability and usability.

- **User Story:** As a developer, I want to fix remaining bugs so that the system is stable.

- o How this should be reflected on the user story definition in Mingle:

- Minor bugs have been identified and resolved across the system.

- **User Story:** As a developer, I want the system to be ready for submission so that the project can be completed.

- o How this should be reflected on the user story definition in Mingle:

- Final testing has been completed and the system is ready for submission.
