

Sprint 7

Attendees: Fabio Tinoco, Richard Rodriguez, Juan Diaz-Zuluaga

Start time: 3:20 pm

End time: 3:50 pm

After discussion, the velocity of the team was estimated to be 10 Story Points

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- User Story 11: <Custom tree and structure implementation onto biome takeover>
 - As a user, I want to see how the custom biome will look like, including vegetation and civilization.
- User Story 12: <Meteor event>
 - As a user, I want to experience the meteor event and see from where in the map the biome is speeding.

The team members indicated their willingness to work on the following user stories.

This sprint will be focused on the implementation of everything that has been done and put together, the biome takeover function, the models, as well as some additional assets like village generation, and new blocks.

User Stories will be ranked in priorities
