

Daily Standup Meeting Minutes

Attendees: Aykhan Pashayev, Charlie Iglesias, Cheng Zhang, Alex Linghay Eng, Nicolas Su Nobrega

Start Time: 7:30 PM EST

End Time: 8:00 PM EST

Aykhan Pashayev:

- How many hours did I work since the last meeting?
 - I worked for 2 hours.
- What was done since the last scrum meeting?
 - Ingestion automated, from now on when cloudtrail logs get uploaded to s3 bucket, it triggers lambda function to parse the logs and save normalized to dynamodb tables.
- What is planned to be done until the next scrum meeting?
 - I'll read other team members researches.
- What are the hurdles?
 - No hurdles so far.

Charlie Iglesias:

- How many hours did I work since the last meeting?
 - I worked for 2 hours since the last meeting
- What was done since the last scrum meeting?
 - I conducted research about CloudTrail identity variations
- What is planned to be done until the next scrum meeting?
 - Continue research and identify which events include session context vs missing identity attributes.
- What are the hurdles?
 - No hurdles

Cheng Zhang:

- How many hours did I work since the last meeting?
 - I worked 2 hour.
- What was done since the last scrum meeting?
 - Extended yesterday's signal extraction work by designing the full feature-to-database mapping and outlining the integration pathway from normalized CloudTrail events to anomaly signals consumable by the AI API. Defined how each anomaly feature maps to database fields and how detection outputs should be structured for downstream services.
- What is planned to be done until the next scrum meeting?
 - Begin drafting `feature_to_database_mapping.md` and prepare the AI API integration specification. Continue validating detection logic using additional sample logs
- What are the hurdles?
 - No hurdles at this time.

Alex Linghay Eng:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - I did my best but my mind was somewhere else today
- What is planned to be done until the next scrum meeting?
 - Try again to figure out what any of this means
- What are the hurdles?
 - I still don't know how to read it's results

Nicolas Su Nobrega:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - I checked stability and consistency
- What is planned to be done until the next scrum meeting?
 - I will continue to tune the detection sensitivity and validating behavior comparisons
- What are the hurdles?
 - No hurdles
