

Daily Standup Meeting Minutes

Attendees: Aykhan Pashayev, Charlie Iglesias, Cheng Zhang, Alex Linghay Eng, Nicolas Su Nobrega

Start Time: 7:30 PM EST

End Time: 8:00 PM EST

Aykhan Pashayev:

- How many hours did I work since the last meeting?
 - I worked for 3 hours.
- What was done since the last scrum meeting?
 - Using anomai-test-actor and activity creator script, logs about unusual Api spikes, logins, different region access created. Currently, working on the script will read the normalized logs from the DynamoDB table and find incidents.
- What is planned to be done until the next scrum meeting?
 - I need to resolve issue with codespace on GitHub. After that, I'll continue working and improving the script, which will read the normalized logs from the DynamoDB table and find incidents.
- What are the hurdles?
 - GitHub Codespace does not work for unknown reasons, trying to resolve the issue.

Charlie Iglesias:

- How many hours did I work since the last meeting?
 - I worked for 3 hours since the last meeting
- What was done since the last scrum meeting?
 - I finalize the script with improvement from team feedback
- What is planned to be done until the next scrum meeting?
 - I will research what behavior patterns indicate anomalies for anomaly detectio

- What are the hurdles?
 - None

Cheng Zhang:

- How many hours did I work since the last meeting?
 - I worked 3 hours.
- What was done since the last scrum meeting?
 - Started formalizing the incident JSON structure required for the MVP. Reviewed the minimal incident shape and began mapping it to the existing API schema work. Outlined the updates needed for schema.json, example_output.json, and the new incident_schema.md so the detection script and UI can rely on a consistent format. Also began aligning the UI wireframe logic with the incident fields, ensuring the layout can support severity, timestamps, explanations, and evidence.
- What is planned to be done until the next scrum meeting?
 - Finish updating the API schema to include the full incident structure and produce a finalized incident example output.
- What are the hurdles?
 - No hurdles at this time.

Alex Linghay Eng:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - Worked a little more on a semi usable powerpoint version of the mockup
- What is planned to be done until the next scrum meeting?
 - Finish it up
- What are the hurdles?
 - Powerpoint is slowing me down a lot

Nicolas Su Nobrega:

- How many hours did I work since the last meeting?
 - 1 hour
- What was done since the last scrum meeting?
 - I verified CloudTrail event output against the API field structure
- What is planned to be done until the next scrum meeting?

- I will ensure all required fields are available for downstream risk scoring
- What are the hurdles?
 - No hurdles
