- Ashley Agbonkhese

Team Velocity

The team will continue working with an estimated velocity of 10 story points, based on initial planning scope and anticipated workload for the first sprint.

Selected User Stories for This Sprint

(Ordered by priority)

User Story #1: LinguaLink Project Definition

As a student development team,

I want to define the core vision, scope, and goals of LinguaLink,

So that the project has a clear direction and a shared understanding before development begins.
