

Sprint 3 Review Meeting Minutes

Attendees: Haruki Horiuchi, Christian Mendez, Serkens Delice, Ashley Agbonkhese, Ajani Cole

Start time: 7:00 pm

End time: 8:00 pm

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

- User Story #1: As a student, I want to share and develop my ideas, so that I can help improve current translation features or contribute suggestions for new ones.
- User Story #2: As a student developer, I want to review existing project code for scalability, so that decisions on current or new translation features can be made with future growth in mind.
- User Story #3: As a student, I want real-time translation suggestions powered by AI, so that I can receive instant feedback while translating.

The following user stories were rejected, can be used for later development.

- User Story #4: As a student, I want the application to support offline translations, so that I can use it without an internet connection.

Status: Rejected due to infrastructure and performance concerns.

These rejected user stories were documented and may be revisited in future development phases as the project evolves and resources allow.
