

Sprint 5 Review Meeting Minutes

Attendees: Haruki Horiuchi, Christian Mendez, Serkens Delice, Ashley Agbonkhese, Ajani Cole

Start time: 10:00 pm

End time: 11:00 pm

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

- User Story #1: As a student, I want to design and document the user onboarding flow for LinguaLink, so that new users can quickly understand how to use the application without confusion.
- User Story #2: As a student developer, I want to implement a language selection feature, so that users can choose their target and native languages when setting up their profile.
- User Story #3: As a student developer, I want to integrate a translation API into LinguaLink, so that users receive accurate, real-time language translations within the application.
- User story #4: As a student, I want to design a consistent UI component library for LinguaLink, so that all team members build new features with a unified visual style and reduce duplicate work.

The following user stories were rejected, can be used for later development.

- No user stories were rejected at this moment.
