

Sprint 7 Review Meeting Minutes

Attendees: Haruki Horiuchi, Christian Mendez, Serkens Delice, Ashley Agbonkhese, Ajani Cole

Start time: 9:00 pm

End time: 10:00 pm

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

- User Story #1: As a student team member, I want to refine and document the finalized purpose, scope, and core features of LinguaLink, so that all team members share a consistent understanding and future development decisions remain aligned.
- User Story #2: As a student developer, I want to review and document the current system architecture and codebase structure, so that the application is easier to maintain, scalable, and ready for future development.
- User Story #3: As a student designer, I want to create and document the initial UI and UX guidelines for LinguaLink, so that the application's design is visually consistent and user-friendly, supporting the project's overall goals.

The following user stories were rejected, and can be used for later development.

- No user stories were rejected at this moment.
- **All user stories were completed, as the project was complete.**
