

Daily Scrum Meeting Minutes:

Attendees: Diego Hernandez, Bosco Silva, Gunther Alonso, Didier Campos, Timothy Rocha

Start time: **10:20 PM**

End time: **10:50 PM**

Diego Hernandez:

- How many hours did I work since the last meeting?
 - 2 hour
- What was done since the last scrum meeting?
 - Received the excel file sent from product owner.
 - Beginning to properly process the data
 - Decided on using Python as the main programming language.
 - Started looking for machine learning models that can separate topics for this project.
- What is planned to be done until the next scrum meeting?
 - Continue to properly process the data
 - Continue looking for machine learning models that can separate topics for this project.
- What are the hurdles?
 - None

Didier Campos:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Decided that we would use Python to program the project.
 - Looked into what tools we could use.
 - Studied different machine learning models to use for our project.
- What is planned to be done until the next scrum meeting?
 - Figure out how were going to handle translating the comments.
- What are the hurdles?
 - No hurdles so far

Gunther Alonso:

- How many hours did I work since the last meeting?

- 2
- What was done since the last scrum meeting?
 - Examined the excel file containing the survey information
 - Researched options for handling Spanish/Portuguese translation/processing for model training
- What is planned to be done until the next scrum meeting?
 - Continue looking into multilanguage model processing
 - Look into suitable machine learning models to begin training
- What are the hurdles?
 - Finding the appropriate model to accurately handle the data

Bosco Silva:

- How many hours did I work since the last meeting?
 - 2 hour
- What was done since the last scrum meeting?
 - Started looking into what tools we are going to use for this AI-driven topic and sentiment analysis project.
 - Decided on using Python as the main programming language.
 - Began research on what AI models to use and train for this project.
- What is planned to be done until the next scrum meeting?
 - Process the data into one language and proper formatting so it's ready to be processed by the AI model.
- What are the hurdles?
 - Nothing

Timothy Rocha:

- How many hours did I work since the last meeting?
 - 2 hour
- What was done since the last scrum meeting?
 - Creation of GitHub for a unified workspace on using Python as the main programming language.
- What is planned to be done until the next scrum meeting?
 - Research into appropriate machine learning models
- What are the hurdles?
 - Nothing
