

Daily Scrum Meeting Minutes:

09/15/2025

Attendees: Diego Hernandez, Bosco Silva, Gunther Alonso, Didier Campos, Timothy Rocha

Start time: 7:00 PM

End time: 7:50 PM

Diego Hernandez:

- How many hours did I work since the last meeting?
 - 3 hour
- What was done since the last scrum meeting?
 - Continued fine tuning the code the turns the given comments into a single language.
 - Continue looking for machine learning models that can separate topics for this project.
 - Continue practicing some python skills for working on the actual code.
- What is planned to be done until the next scrum meeting?
 - Continue practicing python skills
 - Continue looking for machine learning models that can separate topics for this project.
 - Continued fine tuning the code
- What are the hurdles?
 - Finding the perfect model for the project.

Didier Campos:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued working on translating code in order to make it more efficient.
 - Explored python libraries that can help us with our project.
- What is planned to be done until the next scrum meeting?
 - Continue to research.

- What are the hurdles?
 - None

Gunther Alonso:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Collaborated with team mates to test and fine tune patient comment translation
- What is planned to be done until the next scrum meeting?
 - Continue fine tuning of code
- What are the hurdles?
 - Optimal model selection

Bosco Silva:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Continued fine tuning our code to translate the given patient comments into our desired language.
 - Continued becoming more familiar with efficient Python techniques and practices in preparation for the rest of the project.
- What is planned to be done until the next scrum meeting?
 - Test the code out and fine tune where needed for optimal efficiency.
 - Continue discussing which machine learning model to use for our project.
- What are the hurdles?
 - We need to pick the most optimal model for this project.

Timothy Rocha:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Simple research follow up
- What is planned to be done until the next scrum meeting?
 - Continue research on AI models

What are the hurdles
