

Sprint Review Meeting Minutes

Attendees: Bosco Silva, Diego Hernandez, Didier Campos, Gunther Alonso, Timothy Rocha, **Alejandro Arietta (Product Owner)**

Start time: **7:30 PM**

End time: **8:15 PM**

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

- User story #1 setup GitHub repository
- User story #2 Look for machine learning models that can separate topics.
- User story #4 Decide on what technologies we will be using to accomplish our goals

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.

- User story #3 clean the data to take of comments that are not useful
-We decided to reject this user story because we won't be manually cleaning the data, we will instead handle this through code itself. Instead, we decided to filter the data to all be in one language.
