

Sprint Planning Meeting Minutes:

09/15/25

Project:

Cybersecurity: Profiling Ransomware Attacks via Web Crawling and Textual Analysis

Product owner: Weidong Zhu

Attendees:

- Elvis Nakamura,
- Pedro Loor,
- Kevin Montenegro,
- Luis Salgado,
- Jordan Arteaga

Start time: 7:30pm

End time: 8:30pm

After discussion, the velocity of the team was estimated to be:

25 Story points / week

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- **User Story: (User Story A)** - Analyzing and researching the effects of ransomware on companies pre, during and post attack. Finding companies affected and storing the information for later use.
- **User Story: (User Story B)** - Researching tools and web crawlers that will efficiently and effectively find usable data and how to store it.
- **User Story: (User Story C)** - Reviewing the work done by user story A and B verifying any discrepancies or suggestions to add to the work.

Pedro & Kevin - **User Story A**

Elvis & Luis - **User Story B**

Jordan - **User Story C**
