What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes, we all contributed to a realistic velocity estimate.
- Did we do a good job estimating the points (time required) for each user story?
 - Yes, we estimated a reasonable time to work on each story.
- Did each team member work as scheduled?
 - Yes, everyone did their part and contributed to the project.

What went right?

- Researching web crawlers and how they work
- Researching ransomware and common types
- Everyone did their part and contributed equally to the project and the team.

How to address the issues in the next sprint?

- How to improve the process?
 - Finding the times to coordinate with everyone's busy schedule.
 - Gather information and how to store it
- How to improve the product?
 - Find useful and relevant information pertaining to the research
 - Make a platform that we can use to educate.
