

USER MANUAL

Create a user

1. On the registration page fill out the information required.
2. If you're a handyman check the handy man box, and the required type, if not simply leave blank.
3. Click on register

Login

1. Navigate to the login page, which should come up after you have registered.
2. Fill out your information.
3. Click on login

Normal user

1. You will be directed to a home dashboard where you have 3 options. Create a job, job history, and personal information.
2. First create a job by clicking on the create job button.
3. You will be taken to a new page, where you input the job description and check the box which the job type is.
4. Then at the bottom click on create job.
5. You will be taken back to the home dashboard.
6. At the home dashboard, you can view your job creation history, so click on job history. It will navigate you to a new page where the job currently being worked on or completed will be shown.
7. On the top left corner, click on the home button. You'll be redirected to the home dashboard.
8. To look at your personal info, you can simply click on the information button, where you are redirected to a new page which shows your personal info.
9. Finally when all finished, on the top right corner of any page, there is a logout button.
10. Click on the login button and you will be logged out and taken to the login screen.

Handy man user

1. Once you are logged in you will be taken to your handyman dashboard.
2. You will have 3 options, work in progress, job history, and my info.
3. First click on work in progress.
4. Since the application assigns jobs to handymen automatically, handymen will have new jobs when someone creates one automatically.
5. If the handyman is chosen it will show up in the work in progress page.
6. If the handyman decides to decline the job, he can click on the button Terminate Job, and the job is removed from the work in progress page.

7. Otherwise the app assumes the handyman accepted the job.
8. Once the job is complete, the handyman clicks on the Job Completed button and it is removed from the work in progress page.
9. On the upper left corner of a page, the user can find the home page button.
10. Click on it.
11. Once back at the home page, click on job history to see brief descriptions of work in progress or work completed.
12. After taking a look, navigate back home by clicking the home button again.
13. Then click on the my info button, where you will be taken to a page displaying the user's personal info.
14. Once done using the app, in the upper right corner of any page, click the logout button.
15. You will be logged out and redirected to the login page.
