

Daily Scrum Meeting Minutes 7:

Attendees: Manuel Conrad, Isis Gomez, Michael Novas, Kirei Hausheer, Joaquin Prado

Start time: 7:00 P.M.

End time: 8:00 P.M.

Manuel Conrad

- **Hours worked since last meeting:** 3 hours
- **What was done since the last scrum meeting?**
Completed feedback explanations for two phishing scenarios.
- **What is planned to be done until the next scrum meeting?**
Finalize feedback explanations for the last scenario and prepare for demo integration.
- **What are the hurdles?**
Keeping explanations short but still informative.

Joaquin Prado

- **Hours worked since last meeting:** 3 hours
- **What was done since the last scrum meeting?**
Retested MFA after fixes; confirmed improved reliability on Chrome and Android.
- **What is planned to be done until the next scrum meeting?**
Expand QA to include phishing scenario scoring and dashboard export results.
- **What are the hurdles?**
Time-intensive testing process across all modules.

Michael Novas

- **Hours worked since last meeting:** 3 hours
- **What was done since the last scrum meeting?**
Tested PDF exports using phishing scenario data; refined layout for readability.
- **What is planned to be done until the next scrum meeting?**
Add export filters (by user, by module) to improve report usefulness.
- **What are the hurdles?**
Export speed slows down with large data sets.

Kirei Hausheer

- **Hours worked since last meeting:** 3 hours
- **What was done since the last scrum meeting?**
Conducted informal user testing on phishing visuals; positive feedback received.
- **What is planned to be done until the next scrum meeting?**
Adjust visual sizing and alignment for consistency across all scenarios.
- **What are the hurdles?**
Some visuals appear distorted on smaller screens.

Isis Gomez

- **Hours worked since last meeting:** 3 hours
- **What was done since the last scrum meeting?**
Retested MFA issues on iOS; documented improvement but noted occasional delays.
- **What is planned to be done until the next scrum meeting?**
Oversee integration of MFA, phishing, and dashboard into a unified demo flow.
- **What are the hurdles?**
Coordinating fixes across different modules while maintaining demo readiness.
