

Daily Scrum Meeting Minutes 6:

Attendees: Isis Gomez, Manuel Conrad, Michael Novas, Kirei Hausheer, Joaquin Prado

Start time: 7:00 PM

End time: 8:00 PM

Isis Gomez:

How many hours have I worked since the last meeting?

3 hours.

What was done since the last scrum meeting?

Completed layout design for the reporting dashboard and verified score data input.

What is planned to be done until the next scrum meeting?

Start connecting dashboard visuals with live module data and add user progress metrics.

What are the hurdles?

Encountering minor misalignment between data categories and graph outputs.

Manuel Conrad:

How many hours have I worked since the last meeting?

3 hours.

What was done since the last scrum meeting?

Assisted in refining the phishing and password training modules' data output formats.

What is planned to be done until the next scrum meeting?

Help link each module's results to the dashboard and perform data validation checks.

What are the hurdles?

Difficulty ensuring consistent naming conventions between module output variables.

Michael Novas:

How many hours have I worked since the last meeting?

3 hours.

What was done since the last scrum meeting?

Developed the chart visualization component for performance graphs.

What is planned to be done until the next scrum meeting?

Work on error handling for missing data and improve dashboard responsiveness.

What are the hurdles?

Encountering issues when switching between user sessions; data doesn't always reload properly.

Kirei Hausheer:

How many hours have I worked since the last meeting?

3 hours.

What was done since the last scrum meeting?

Finalized visual assets and improved color contrast for dashboard readability.

What is planned to be done until the next scrum meeting?

Optimize design for smaller screens and assist with responsive layout testing.

What are the hurdles?

Ensuring chart visuals remain legible when resized.

Joaquin Prado:

How many hours have I worked since the last meeting?

3 hours.

What was done since the last scrum meeting?

Tested the integration of all modules with the dashboard and logged bugs.

What is planned to be done until the next scrum meeting?

Re-run tests after fixes and ensure each module submits results properly.

What are the hurdles?

Some modules still show outdated test data during retests.
