

Sprint Retrospective:

Attendees: Joshua Rodrigues, Bryan Diaz, Marcus Ragoobar, Hossam Keddees

Start time: <8:30 pm>

End time: <9:00 pm>

What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes, we were able to properly evaluate the time needed to complete all the tasks at hand, with exception of the Notebook UI which is still being made.
- Did we do a good job estimating the points (time required) for each user story?
 - Yes, we were able to effectively estimate the time required for each user story.
- Did each team member work as scheduled?
 - Yes, each member worked on time, as well as met at the scheduled times

What went right?

- We successfully met with the product owner to discuss the project in more detail
- We were able to brainstorm Ideas for the game
- We were able to implement the text dialogue, the display of character portrait and name, and the branch handling system, as well as implement basic movement and some sprites for the game

How to address the issues in the next sprint?

- How to improve the process?
 - Because of exams and homeworks revolving around other courses, it has been a difficult week to move the project along. But as it goes on we will have more time to focus on it

How to improve the product?

- Come to a unified agreement regarding development goals, as well as continuing to follow up with the product owner to ensure we have her approval and guidance.
