

Sprint Planning Meeting Minutes:

Project: AI Mock Interview App

Attendees: Daniella Fuentes, Lindsey Blais, Nakisha Strickland.

Start time: 4:00 PM

End time: 5:00 PM

After discussion, the velocity of the team was estimated to be <20 story points>.

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- **User Story 36:** Refine adaptive AI feedback to improve tone accuracy and reduce repetitive phrasing.
- **User Story 37:** Expand language support by adding French and Portuguese translations.
- **User Story 38:** Develop a “Career Focus Dashboard” that combines data from all industry categories.
- **User Story 39:** Introduce a user progress streak tracker to encourage daily interview practice.
- **User Story 40:** Enhance overall accessibility by adding screen reader support and larger text settings.

The team members indicated their willingness to work on the following user stories.

- <Daniella Fuentes>
 - Lead development for User Story 36 (adaptive AI tone and phrasing).
 - Support User Story 39 by integrating AI-generated motivational prompts for streak tracking.
 - ...
- <Lindsey Blais>
 - Lead backend development for User Story 37 (multi-language expansion).
 - Support integration of cross-category data for the Career Focus Dashboard (User Story 38).
 - ...
- <Nakisha Strickland>
 - Design and implement UI for the new Career Focus Dashboard (User Story 38).
 - Lead accessibility improvements (User Story 40), including text resizing and screen reader compatibility.
 - ...
