- What is planned to be done until the next scrum meeting?
 - I plan to finalize the diagram's layout and prepare a short summary that explains each stage of the simulated USB drop attack for the project documentation.
- What are the hurdles?
 - None at the moment.

Amelia DiGennaro:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Since the last meeting I finalized the simulation scenarios and presented them to my team to receive their helpful feedback. I also refined the acceptance criteria to ensure that each step of the drop attack is measurable and aligns with the project goals.
- What is planned to be done until the next scrum meeting?
 - I plan to implement my team's suggestions into the simulation scenarios to improve the structure and flow of the final draft. I will also review the mapped test cases to confirm they match with the finalized scenarios before I move into the execution planning.
- What are the hurdles?
 - A potential hurdle right now is coordinating with my team to go over the updated scenarios because I cannot move forward with the execution planning until then.
