

Sprint Review Meeting Minutes

Attendees: Daniel Gonzalez, Julian Manrique, Muhammad Ahmad Malik, Antoine Morrison, Ian Borges

Start time: 1:30 PM EST

End time: 2:00 PM EST

After a show and tell presentation, the implementation of the following user stories were accepted by the product owner:

User Story #6: AI-generated quizzes based on summarized notes

User Story #7: Smart tag recommendation for uploaded documents

User Story #8: Integration with Google Classroom and Microsoft Teams

User Story #9: Visual analytics dashboard for study trends

User Story #10: Real-time chat for peer study groups

- **User Story #6:**
 - Define question formats (multiple-choice, true/false, short answer)
 - Allow difficulty scaling based on performance history
- **User Story #7:**
 - Use NLP to suggest tags based on note content
 - Allow users to approve or edit tag suggestions
- **User Story #8:**
 - Define which permissions are needed for sync
 - Determine supported content types (PDFs, flashcards, links)
- **User Story #9:**
 - Include visualizations like heatmaps and bar charts
 - Allow filters by time range and study topic
- **User Story #10:**

- Define message history limits and moderation rules
- Consider emoji reactions and file-sharing support
