

Review Meeting Minutes

Project: Deploying a SIEM in Microsoft Azure

Attendees: Mateo Escobar, Nikohl Fuentes, Ryan Hamel, Sebastian Medina, Marian Mora

Start time: 4:00 P.M.

End time: 5:00 P.M.

After a show and tell presentation, the implementation of the following user stories was accepted by the product owners: All.

- **User Story 9:** Make sure that we can view any logs through the event viewer in order to see any traffic, more specifically by failing logins. (2 points).
- **User Story 10:** Configure a log repository in order to begin setting up the SIEM to collect logs. (2 points).
- **User Story 11:** Finally create and establish Microsoft's SIEM known as Sentinel (2 point).
- **User Story 12:** Successfully connect our VM to log analytics workspace (3 points).

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting.

- **No user stories were placed onto the backlog.**
