

Daily Scrum Meeting Minutes:

Attendees:

Bryan Garcia - 6289119

Tom Mizrachi - 6358028

Andres Jaimes - 6289563

Cesar Pereyra - 5544950

Bryan Hernandez - 6456561

Start time: 5:15 PM

End time: 7:15 PM

Bryan Garcia:

- **How many hours have I worked since the last meeting?**
 - 2 hours
- **What was done since the last scrum meeting?**
 - Focusing more on research and looking for articles to reference examples for the project.
- **What is planned to be done until the next scrum meeting?**
 - Continue with the research along with sharing what we have found and coming up with a strong impact on the project.
- **What are the hurdles?**
 - Research online and brainstorm ideas together.

Tom Mizrachi:

- **How many hours did I work since the last meeting?**
 - 2 hours
- **What was done since the last scrum meeting?**
 - Did some research on docker to prepare for the project
- **What is planned to be done until the next scrum meeting?**
 - Learn more about docker, then eventually ansible. Will prepare user stories.
- **What are the hurdles?**
 - None yet

Cesar Pereyra:

- **How many hours have I worked since the last meeting?**
 - 2 hours
- **What was done since the last scrum meeting?**
 - Continued researching ansible and docker as a base for the project.
- **What is planned to be done until the next scrum meeting?**
 - Learn more about ansible and docker and how to configure them.
- **What are the hurdles?**
 - Understand ansible/docker.

Bryan Hernandez:

- How many hours did I work since the last meeting?
 - 2 hours
- What was done since the last scrum meeting?
 - Confirmed the prototype idea for the project.
- What is planned to be done until the next scrum meeting?
 - Doing research on Ansible and Docker to prepare and learn how to build the base of this project.
- What are the hurdles?
 - Figuring out how to spread the workload evenly.

Andres Jaimes:

- **How many hours have I worked since the last meeting?**
 - 2
- **What was done since the last scrum meeting?**
 - We decided on our project Idea, Started preparing with learning Ansible, and cloud-init development using virtualbox to understand how the process works, so we can do an automated first time boot.
- **What is planned to be done until the next scrum meeting?**
 - We are going to decide what to split.
- **What are the hurdles?**
 - Nothing yet
