

## Daily Scrum Meeting Minutes:

Attendees:

**Bryan Garcia - 6289119**

**Tom Mizrachi - 6358028**

**Andres Jaimes - 6289563**

**Cesar Pereyra - 5544950**

**Bryan Hernandez - 6456561**

**Start time: 2:15 PM**

**End time: 5:15 PM**

Bryan Garcia:

- **How many hours have I worked since the last meeting?**
  - 2 hours
- **What was done since the last scrum meeting?**
  - Saw a video that contains a possible code and plug in to use.
- **What is planned to be done until the next scrum meeting?**
  - Gather more information and sources to use.
- **What are the hurdles?**
  - Take steps by steps carefully with the assignment.

Tom Mizrachi:

- **How many hours did I work since the last meeting?**
  - 3 hours
- **What was done since the last scrum meeting?**
  - Researching about Git and Docker
- **What is planned to be done until the next scrum meeting?**
  - We are discussing the next steps of the project, making sure we are all on the same page as well.
- **What are the hurdles?**
  - None yet

Cesar Pereyra:

- **How many hours have I worked since the last meeting?**
  - 3 hours
- **What was done since the last scrum meeting?**
  - Continue learning how to use git and GitHub to better organize our progress. Experimented with GitHub's copilot features. Used copilot with docker to generate files on the fly.
- **What is planned to be done until the next scrum meeting?**
  - Continue learning how to use git to manage the project.
- **What are the hurdles?**

- Lots of different resources git/docker, currently working with an Ubuntu environment

Bryan Hernandez:

- How many hours did I work since the last meeting?
  - 3 hours
- What was done since the last scrum meeting?
  - Jobs organized based on strength
- What is planned to be done until the next scrum meeting?
  - Learn docker and begin working on individual assignments
- What are the hurdles?
  - None right now

**Andres Jaimes:**

- **How many hours have I worked since the last meeting?**
  - 3
- **What was done since the last scrum meeting?**
  - Did a complete setup with Amazon web service: EC2 and S3 buckets to be able to store and run our website and I'll just have it delivered on Cloudflare because we need a CDN a middleman just for protection in my eyes even if it's not mandatory
- **What is planned to be done until the next scrum meeting?**
  - I'll continue to progress and learn more
- **What are the hurdles?**
  - Nothing yet
