

Daily Scrum 33

Date: October 16

Attendees: Matthew Chaar, Eduardo Parrado Arango, Joshua Aranzazu, Nelson Rodriguez, Joshua Conte

Start time: 09:10 PM

End time: 09:25 PM

Matthew Chaar:

- How many hours did I work since the last meeting? 1
- What was done since the last scrum meeting? Lockout logic works (returns 423 Locked).
- What is planned to be done until the next scrum meeting? Add timestamp to auto-unlock after 15 mins.
- What are the hurdles? Date format comparisons.

Eduardo Parrado Arango:

- How many hours did I work since the last meeting? 1
- What was done since the last scrum meeting? Endpoint returns 10 codes to frontend (plaintext) then saves hashed versions.
- What is planned to be done until the next scrum meeting? Unit test the consumption of a code.
- What are the hurdles? None.

Joshua Aranzazu:

- How many hours did I work since the last meeting? 2
- What was done since the last scrum meeting? PDF generation works on iOS simulator.
- What is planned to be done until the next scrum meeting? Test on Android.
- What are the hurdles? Android file permission errors.

Nelson Rodriguez:

- How many hours did I work since the last meeting? 1
- What was done since the last scrum meeting? Drafted "Reset Password" screen.

- What is planned to be done until the next scrum meeting? Verify the token from the email link.
- What are the hurdles? Deep linking into the app from email.

Joshua Conte:

- How many hours did I work since the last meeting? 1
- What was done since the last scrum meeting? Assisted Eduardo with defining the API payload for backup code verification.
- What is planned to be done until the next scrum meeting? Implement UI error handling for invalid codes.
- What are the hurdles? None.
