Start time: 9:00 pm

End time: 9:30 pm

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

- Previous story is still being worked on and will be added onto upcoming sprint

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.

- User Story: **Plan a hypothetical method in which to execute the Watchman Route algorithm around holes.**
 - How this should be reflected on the user story definition in Mingle:
 - As we will now begin to actually test and use CGAL and C++ we will continue to work on paper solutions and also start looking into it from the side of programming with CGAL in mind and all possible functions in its library
