

Sprint Backlog Grooming Meeting Minutes #2: 09/22/2025

Attendees: Luis Delgado, Andres Hernandez Raggioli, Ana Oliveira, Gaeldesh Demosthene

Start time: 10:00 PM

End time: 11:00 PM

The following user stories were created/discussed/refined/prioritized:

- GitHub Repository Setup [1]: As a developer, I want a shared GitHub repository, so that the team can collaborate on the project codebase efficiently.
- Local Development Environment Setup [2]: As a developer, I want to set up my local development environment, so that I can run and test the project code consistently.
- API Research [3]: As a developer, I want to research possible APIs, so that the team can determine which ones best fit our project needs.
- System Architecture [4]: As a developer, I want to create an initial architecture, so that the team has a blueprint for how the system components will work together.
- Frontend Design [5]: As a user, I want to see initial UI designs, so that I can understand how I will interact with the system.
- User Story 1: Implement User Authentication and Login System
- User Story 2: Design and Integrate User Profile Management
- User Story 3: Develop Progress Report Dashboard with Charts
- User Story 4: Connect to Third-Party API for Data Retrieval
- User Story 5: Enable Export of Reports in PDF Format

The user stories below are completed:

- GitHub Repository Setup [1]: As a developer, I want a shared GitHub repository, so that the team can collaborate on the project codebase efficiently.
