

Daily Standup Meeting Minutes

Date: 09/26/2025

IT Project: Personal Budget Tracker Website

Meeting Summary:

We have begun adding our coding to our shared github created by David E. We are still working on the framework ensuring that compiles correctly and then we will proceed with creating our intended aesthetic and how our users will interact with each page of the website. We also discussed if we are having any issues compiling the code we can reach out to the tutors to better apply ourselves. .

- Pages 1 & 2 (Intro and Name Input): **David Edelduok**
- Pages 3 & 4 (Password & Security Questions): **Miladys Perez**
- Pages 5 & 6 (Bank Info & Account Setup): **Maria Flores**
- Pages 7 & 8 (Budget Overview & Overspending): **Malik Wahab Rashid**
- Pages 9 & 10 (Total Savings & Income vs. Expenses): **Randy Pierre**

Team Roles

[Miladys Perez] - Scrum Manager/Product Owner: Will track progress, define vision, and ensure tasks are clear.

[Maria Flores] - Wireframe designer: Will sketch rough page layouts for Home, Login, and Dashboard.

[David Edelduok] - Flow planner: Will describe the step by step process a user will take - from signing up to using the site.

[Malik Wahab Rashid] - GUI Stylist: Will suggest color, fonts, and styles - how should the site feel visually.

[Randy Pierre] - Feature Writer : Will write a list of 3-4 things the website should let the users do.
