

Sprint Review Meeting

Date: 11/23/2025

Project: Personal Budget Tracker Website – *SmartSpender*

Attendees: Miladys Perez, Maria Flores, David Edelduok, Malik Wahab Rashid, Randy Pierre

Meeting Summary

Sprint Goal:

To complete the majority of the project's code, ensure functionality aligns with user experience goals, and begin preparing final deliverables for submission and presentation.

Deliverables Achieved:

- The team successfully completed approximately **90% of the project's code**, with all major functionalities now in place.
- Each team member refined their assigned sections, improving usability and overall design.
- Collaboration through GitHub remained consistent, with frequent commits, reviews, and feedback exchanges.
- Daily stand-ups continued to support progress tracking, accountability, and timely issue resolution.

Demo/Outcome:

The team showcased near-complete website functionality, demonstrating strong interactivity, visual consistency, and system performance. GitHub documentation shows steady, organized contributions from all members. The project is now entering the final development phase, focused on deliverables and presentation materials.

Next Steps:

- **Maria Flores:** Finalize the **database** and ensure smooth integration with the PHP components.
- **David Edelduok:** Create the **README.txt** and **User Manual** with clear setup and usage instructions.
- **Miladys Perez:** Write the **Full Final Report**, summarizing project goals, process, outcomes, and results.

- **Randy Pierre:** Design the **Project Poster** highlighting features, visuals, and team contributions.
- **Malik Wahab Rashid:** Develop the **Presentation Slides** for the final sprint presentation.

The team aims to complete all deliverables and conduct final testing before the project presentation and submission deadline.
