

Daily Standup Meeting Minutes

Date: 09/22/2025

IT Project: Personal Budget Tracker Website

Meeting Summary:

We are starting to do research on where we will be compiling our code together. We have begun coding our pages individually. We also discussed if we are having any issues compiling the code we can reach out to the tutors to better apply ourselves. Once we have atleast 75% done we shall start putting our pages together to create at least the frame of our website, details will come soon after.

- Pages 1 & 2 (Intro and Name Input): David Edelduok
- Pages 3 & 4 (Password & Security Questions): Miladys Perez
- Pages 5 & 6 (Bank Info & Account Setup): Maria Flores
- Pages 7 & 8 (Budget Overview & Overspending): Malik Wahab Rashid
- Pages 9 & 10 (Total Savings & Income vs. Expenses): Randy Pierre

Team Roles

[Miladys Perez] - Scrum Manager/Product Owner: Will track progress, define vision, and ensure tasks are clear.

[Maria Flores] - Wireframe designer: Will sketch rough page layouts for Home, Login, and Dashboard.

[David Edelduok] - Flow planner: Will describe the step by step process a user will take - from signing up to using the site.

[Malik Wahab Rashid] - GUI Stylist: Will suggest color, fonts, and styles - how should the site feel visually.

[Randy Pierre] - Feature Writer : Will write a list of 3-4 things the website should let the users do.
