

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 10:15 AM

End time: 10:30 AM

Luis Gonzalez:

How many hours did I work since the last meeting?

2 hours

What was done since the last scrum meeting?

Keep doing more research on the deep learning models like the summarizer model and the graph concept model

What is planned to be done until the next scrum meeting?

Start implementing the API needed to access the models so that the user can see the output of the Deep Learning model

What are the hurdles?

Some minor bugs with the API connection

Anjani Mogallur:

How many hours did I work since the last meeting?

2 hours

What was done since the last scrum meeting?

Finished writing a simple scoring guide with 3-4 criteria like clarity, length, and relevance to main ideas to manually rate summary quality.

What is planned to be done until the next scrum meeting?

Start preparing a few longer sample documents that include more complex topics to ensure different types of content can be summarized.

What are the hurdles?

Making sure the scoring guide is easy to use and not too subjective.

David Peno:

How many hours did I work since the last meeting?

2 hours

What was done since the last scrum meeting?

Plan how to implement the graph tools and how it would function with other features of the project

What is planned to be done until the next scrum meeting?

Keep planning the implementation of the graph tools and how they will be used for the purposes of the note summarizer

What are the hurdles?

Finding out how what features could be dependent on the graph tools

Kendrick Crespo:

How many hours did I work since the last meeting?

2 hours

What was done since the last scrum meeting?

Continued to research ways to determine the best way to connect the backend API to the frontend while ensuring low latency.

What is planned to be done until the next scrum meeting?

Research ways to manage secure session handling without have such difficulty

What are the hurdles?

Difficulty finding up-to-date, beginner-friendly resources on secure session handling.

Jonathan Hernandez:

How many hours did I work since the last meeting?

2 hours

What was done since the last scrum meeting?

No major changes from yesterday. Continued refining the web page setup—finalized layout structure and added support for dynamically loading graph components.

What is planned to be done until the next scrum meeting?

Start feeding in real graph data and test interactivity features like click-based node expansion and smooth zoom behavior.

What are the hurdles?

Ensuring smooth transitions and interactivity without impacting overall page responsiveness or layout flow.
