

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 12:10 pm

End time: 12:30 pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Implement the rest of the API calls, and test the rest of the API endpoints

What is planned to be done until the next scrum meeting?

Implementing the Deep Learning models that creates the graphs based on all the text data of the document

What are the hurdles?

No hurdles at the moment

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Created sample preprocessed outputs from different file types and reviewed them to make sure all are the same in formatting.

What is planned to be done until the next scrum meeting?

Map out the interface between the preprocessing component and the summarization module.

What are the hurdles?

Making sure the chunked text maintains context across segments.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Worked on implementing the graph tools to create graphs that connect key terms from documents

What is planned to be done until the next scrum meeting?

Keep making progress on the implementation of the graph tools and how they could help the natural language processing tasks of a note summarizer

What are the hurdles?

Allowing the graph tools to have information on which words are important terms and are related to each other in the context of the document

Kendrick Crespo:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Research date formatting across different endpoint environments.

What is planned to be done until the next scrum meeting?

Researched ways to not limit the access to certain environments, slowing down testing.

What are the hurdles?

No hurdles for the moment.

Jonathan Hernandez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Moved forward with the UI improvements—finalized the updated node styling, improved layout responsiveness, and added basic animations to enhance graph interaction.

What is planned to be done until the next scrum meeting?

Begin refining tooltip behavior and structure, and start prepping integration points for real data input into the graph component.

What are the hurdles?

Maintaining smooth performance with animated elements and ensuring consistency in styling across various browsers and screen sizes.
